**SUPPLEMENTARY INFORMATION:**

**A. Purpose**

Executive Order (E.O.) 13627, entitled Strengthening Protections Against Trafficking in Persons in Federal Contracts, dated September 25, 2012 (77 FR 60029, October 2, 2012) and Title XVII of the National Defense Authorization Act for Fiscal Year 2013 (Pub. L. 112-239, enacted January 2, 2013) strengthen the long standing zero-tolerance policy of the United States regarding Government employees and contractor personnel engaging in any form of trafficking in persons.

Additional protections are required where the estimated value of the supplies (other than commercially available off-the-shelf (COTS) items) to be acquired outside the United States, or the services to be performed, outside the United States has an estimated value that exceeds \$500,000. These protections include the following: (a) The contractor is required to implement and maintain a compliance plan during the performance of the contract that includes an awareness program, a process for employees to report activity inconsistent with the zero-tolerance policy, a recruitment and wage plan, a housing plan, and procedures

to prevent subcontractors from engaging in trafficking in persons; and (b) The contractor is required to submit a certification to the contracting officer prior to receiving an award, and annually thereafter, asserting that it has the required compliance plan in place and that there have been no abuses, or that appropriate actions have been taken if abuses have been found. The compliance plan must be provided to the contracting officer upon request, and relevant portions of it must be posted at the workplace and on the contractor's website. Additionally, contractors are required to flow these requirements down to any subcontracts where the estimated value of the supplies acquired or the services required to be performed outside the United States exceeds \$500,000.

#### **B. Analysis of Public Comments**

Three respondents submitted public comments on the new information collection. The analysis of the public comments is summarized as follows:

Comment: Several respondents commented that the four hour estimate per contract to prepare and submit an annual certification underestimates the burden because it does not take into consideration the time required to monitor, detect and terminate any agent subcontractors or

subcontractor employees who have engaged in trafficking in persons at all tiers.

Response. The Councils performed a detailed analysis and believe that the certification process should require minimal additional attention if a company is taking the time required to maintain a sound compliance plan. Therefore, the Councils have not increased the estimated number of burden hours.

Comment. One respondent commented that the 24 hour estimate to prepare the compliance plan underestimates the burden.

Response. The Councils performed detailed analysis taking into account many factors. The estimated burden associated with writing the compliance plan takes into consideration that this is one-time, to be updated, as necessary, to align with the size, scope and complexity of later procurements. The Councils have not increased the estimate.
